

QMS Manager

Bern Area, Switzerland

tamanna@elemed.eu

The Company

With over 30 years experience, this company is producing innovative and world recognised products. Thus allowing you to be part of an organisation that really appreciates the global platform.

This is a great opportunity to join a quality department that encourages training and growth. You will join a supportive team who share their ideas and knowledge to drive forward product development. Working in a clear matrix structure there are great opportunities to develop and grow your career within quality management systems.

This company also appreciates a strong employee development programme. As an employee you will be enrolled in the flexible working scheme; which will allow you to gain flexibility to have up to two days working from home. You will also be put on a strong career progression path, which will give you the opportunity to develop your career into people management in the future.

If working with cutting-edge technology, in an international environment, at the company's headquarters is what you are looking for, look no further!

The role

As QMS Manager you will:

- Working closely with the project managers of the business to drive forward strategy for QMS
- Review and develop key documents associated with the QMS
- Conduct internal and external audits- be a leading person in this area
- Working closely with the Director of QA to drive forward the strategy for the QA department concerning all matters relating to QMS
- Be the key user of the quality management system
- Work closely with the QA/RA teams to develop strong communication across both departments

Requirements

As QMS Manager you should have:

- 3+ years of experience within quality assurance with a key focus on QMS
- Minimum of a Bachelor degree
- Experience of working with the FDA and EU markets would be a bonus
- Understanding of ISO 13485, where understanding of ISO 62304 and ISO 60601 would be a bonus
- Strong project management skills
- Strong English language skills, where at least conversational level German is required
- Strong motivation and eagerness to learn and develop
